

COVID19

Emergency Management

Founded in response to the global threat of Covid-19 by former FEMA Director James Lee Witt and Merlynn Carson, MD, CEO of Myriddian Healthcare, Aegis 19 (Aegis) provides comprehensive disaster preparedness, mitigation, response, recovery and emergency management advisory services to public and private sector organizations. The Aegis team collectively represent hundreds of years of private sector, public service, and government experience in the fields of emergency planning and response, population health, and project management.

COVID-19 PREPARATION

On January 30, 2020, the International Health Regulations Emergency Committee of the World Health Organization declared the outbreak a “public health emergency of international concern” (PHEIC). **On March 11, 2020, the World Health Organization declared the outbreak a Pandemic as confirmed cases of COVID-19 had spread to more than 100 countries.**

In order to respond to COVID-19 and other current or emerging global and national events we have created a team to bring a holistic approach to disaster management. Each team member specializes in a specific niche that is broken out by the four stages of disaster recovery: Mitigation, Preparedness, Response and Recovery. Our team and subject matter experts have the capabilities to provide a comprehensive approach to effectively utilize, manage and deploy resources with the goal of preparing our clients for rapid containment, recovery, and communications.

PAST PERFORMANCE & CAPABILITIES

We build lasting partnerships with our clients because we continually perform for them. We advise state and local governments, hospitals and health systems, institutions of higher education and K-12, water utilities and power districts, as well as the private sector as they seek solutions to the myriad of issues presented by disasters. We are there with our clients to help them turn such obstacles that arise into opportunities for strengthening communities.

BUSINESS CERTIFICATIONS

SBA 8(a) | WOSB | DBE | NSA-DHMH | SBE-MDOT | NMSDC

866-917-4467

Core Capabilities

- Strategic Planning and Guidance
- Program Management/Support
- Triage Management/Training
- EOC Staff Augmentation
- Performance Evaluation & After-Action Reporting
- \$1b Federal, State, and Local Financing Program

Covid-19 Delivery

- Rapid Deployment Facilities
- Triage Management/Training
- Medical Supplies & Equipment
- Crisis Communications
- Quality Assurance & Controls
- Emergency 24/7 Response

Past Performance

- Avian Flu Outbreak
- Anthrax Contagion at NBC Studios and US Post Office in NY
- National Response to the Anthrax Attacks
- Northridge Earthquake
- Oklahoma City Bombing
- Hurricane Katrina
- Hurricane Sandy
- The 9-11 terrorist attack on NYC
- Hazardous & Infectious Waste Management and Disposal

PRINCIPALS

Merlynn Carson, MD
CEO, Myriddian Healthcare

Merlynn is the CEO and founder of Myriddian Healthcare and a proven thought leader in healthcare and population health management. Dr. Carson is considered an expert in healthcare communications, training, and risk mitigation and provides services nationally to federal, state and local agencies as well as many private sector organizations.

James Lee Witt
CEO, AG Witt

James Lee is a former director of FEMA and member of President Bill Clinton's White House Cabinet. As FEMA Director, Mr. Witt coordinated federal disaster response and recovery on behalf of the White House and oversaw more than 350 disasters, some of which were the most devastating disasters of all time.

CRISIS MANAGEMENT TEAM

We have assisted clients and led national level planning for all hazards, whether it is a natural disaster, a technological or biological. We provide our clients unmatched experience and ability to respond to any disaster at a moment's notice.
